Project Name: Advancing Campus Involvement and Employment of Disabled Students
Project Type: Staffing
Funding Requested: 75,828
Starting: Fall_2009

Student priorities addressed: Disabled Students, On Campus Jobs, Health & Wellness, Sustainability Programs

Is new project: No
Funded in the past by service fee: No

length: Multi-year

Multi-year justification: To ensure the long term sustainability of this effort, the DRC will need a few years to both re-structure itself to accommodate this initiative as well as to assist other key departments in incorporating disabled students into their programs and services in ways that are welcoming, inclusive, and accessible.

Is Services Fee sole funding: Yes

Will continue w/o funding: No
Explanation: In light of recent budget cuts and the continuing downward spiral of the economy, it is doubtful that the DRC would be able to initiate this project in any significant way. There may be some minimal efforts that could be implemented once we determine how we are going to deliver basic mandated services with a reduced staff.

Director: Sue Kroeger
